There is a great deal of training involved in getting students to the point where they can run subjects enter, code, and analyze data, therefore we generally ask students to be open to a two semester commitment (the summer may count as a semester). Is this plausible for you?

Thank you for completing this application. The current RAs will review them and will invite some applicants to interview. We select RAs for the following semester very early. Please e-mail marriage@binghamton.edu to find out about the deadline for a particular semester or if you have any other questions.

Please return completed forms to marriage@binghamton.edu or to Clearview Hall Room 69, if nobody is there please slip under the door.
